Information Technology Bureau – Troy/Latham
Student Assistant for Enterprise Applications
Reference No. ITB/EAT_PUGS_FALL_2023

Application Deadline is September 15, 2023*
2023 Fall Semester Paid, Part-Time Placement for Undergraduate Students

The Office of the New York State Attorney General's (OAG) [Information Technology Bureau](#) (ITB) has a paid placement available for a qualified undergraduate student to work with the Enterprise Applications Team (EAT) during the 2023 Fall Program. The EAT supports the implementation of major OAG ITB initiatives. The EAT is charged with developing enterprise level applications and providing customer-centric solutions involving these technologies. The ITB bureau manages multiple information systems including case management, charities registration and annual reporting, civil recoveries and debt collection, electronic payments and other mission critical applications and functions.

The duties of the student assistant will include but not be limited to the following:

- Tracking and monitoring implementations to help increase effectiveness;
- Conducting research and analysis on the technology used at similar state agencies and entities;
- Preparing memos and presentations to report findings;
- Working collaboratively with staff in ITB and the OAG's bureaus;
- Assisting with the documentation of existing applications and new application builds;
- Performing data cleansing, analysis, and summarizing large datasets;
- Learn new software applications to assist with proof-of-concept development; and
- Performing other qualitative and quantitative research tasks as needed.

The ITB is seeking applicants with the following qualifications/skills:

- Demonstrated interest in information technology;
- Prior experience in applying quantitative methods in research and/or analytics;
- Prior experience with programming and/or scripting;
- Strong presentation and verbal and written communication skills;
- Organized, self-directed, and curious;
- Experience using the Microsoft Office Suite: Word and Excel (including formulas and pivot tables);
- Knowledge of coding and querying languages (Python, SQL, R, Java, Net) is preferred, data visualization software is a plus (Tableau, Power BI, Azure); and
- An interest in programming and the application development lifecycle.
