Interscope Geffen A&M

We appreciate the iPod you provided us with in support of our Limp Bizkit "Behind Blue iPods" promotion. The entire promotion was a complete success and the winner loved the iPod you provided complete with the Limp Bizkit catalog loaded onto it.

As always it's great to do promotions with you and Interscope. Look forward to our next one. The total cost of the promotion was \$291.30

In general, it was and has been a fight to even get band on some of these shows. And if we didn't do the show then this record would have taken a back seat behind many others. And of course the add came with that.

I know that surprises some people to hear that and may in fact even piss some off too. Though the band is a ticket seller, has a real fan base and has sold a lot of records--NFG, and I had a crash course experience on NFG from radio, is not an "A" level act to modern rock radio.

So--a spin commitment (# of spins per week for a certain amount of weeks) was, in general, not part of getting the deal done. When we did Blink for X-mas shows...yes..we had a minimal 3x a day (not including overnites) deal with the involved stations. This time, with NFG, was not as easy. With all that said, YES, the stations need to play record more and I have no problem getting my hands dirty with them to get it done. It was even addressed on today's conf call.

Sorry for the long answer. I still believe that these radio shows are a great way to launch the record.

So we didn't ask for any spins commitment when we committed the band to these shows?

With WFNX we were basically out of biz there. Blink for BCN x-mas show. NFG for BCN River Rave and barely crumbs to FNX. So, this acoustic perf got us back in. But—still I/we plan to get right into it with them and demand a solid rotation on NFG. "You wonder why we don't step up for you? This is a prime example, guys!"

WXRK,KROQ,Live 105 etc...yes, you are right. We need to address their airplay and get the minimal 2x a day (at worst) and more.

Some of the biggest offenders on this record are the stations we are doing shows for...did we ask for spin commitments from any of these stations?

Yup. That one is not sitting well with us. Spins started yesterday..but as far we are concerned they have some catching up to do. I have voice-mails into PD and MD as does —who is with So Co right now.

WROX: 3 requests total all last week for this record, rotation will maintain as is.
WDYL: MD not feeling this record, and says they are not getting requests on the record. rotation will maintain as is. (will check again w/him tomorrow)
WAVF: this record is solely a night record for them, too hard at this point to open to dayparts, getting top 5 phones at night. rotation will maintain as is.

Guys,

This is standard business that we should know off the top of our heads, especially as nationals. I need the entire staff to submit any and all stations that participate on the alternative AND rock side on the below mentioned time buys and extra spin promotions in order to achieve our chart positions. I need this by Friday without exception. Make it part of each call you make with radio starting today.

This is great work. I've got some questions, who produces the spots? what is the turn around time and will the stations' accept a spot that is mostly music (some stations have rules against that).

Also we would need to figure out how to isolate the BDS thumb print to make sure the investment in spots works - I think the thumb print from BDS changes - so can you look into that as well?

Thank you again, for all your help with this - it is a fantastic idea!

Here are some cheapy MR spots. The remaining stations at MR in the Boston and Los Angeles regions are quite pricey. There are probably more opportunities in other small markets. I have only had the opportunity to call 50% of the panel. Please let me know if there is anywhere else you would like me to investigate. I will get into the actives tomorrow.

Subject: RE: Some Cheap MR Spots

This is great work. I've got some questions, who produces the spots? what is the turn around time and will the stations' accept a spot that is mostly music (some stations have rules against that).

Also we would need to figure out how to isolate the BDS thumb print to make sure the investment in spots works - I think the thumb print from BDS changes - so can you look into that as well?

Thank you again, for all your help with this - it is a fantastic idea!

Subject: Some Cheap MR Spots

Here are some cheapy MR spots. The remaining stations at MR in the Boston and Los Angeles regions are quite pricey. There are probably more opportunities in other small markets. I have only had the opportunity to call 50% of the panel. Please let me know if there is anywhere else you would like me to investigate. I will get into the actives tomorrow.

Pricing at \$2000 per slot for the 28 spins. Can do a special two for one right now. I can also work price based on length of placement or number of slots placed.

Please start a campaign on Monday, July 14th on ASHANTI 'Rain On Me'.

STATIONS: 2

WGCI/Chicago

WQHT/NYC

TIME FRAME: 6 weeks; we WILL be adding stations to this call list, but we want to start out with these 2 first.

SETUP: First 2 weeks 25 curiosity calls per week; last 4 weeks, 40 calls per week to each station.

AGE/ETHNICITY: Females 18-24, all Black.

COST: 3500.00 for a 6-week campaign, beginning 7/14/2003. The bill must be split in 2 parts, \$1750.00 to my attention, \$1750.00 to attention.

WILL NEED TO GIVE YOU A CTS # BEFORE YOU BILL ME.
Please do NOT send my portion of the bill without a CTS# from as it will get

thrown away. We should have CTS#s in a very few days.

: please contact me when we have CTS#S for Ashanti "Rain On Me".

we need to add KIKI to the no pay list for McClusky. Let's discuss KHTN, remember we had the discussion with Rene that he would rather have us pay Lawley than do promotions with him(DVD's etc). I thought we were paying KHTN and told Gary yesterday that we would pay for Cam at the bottom rung.

New Price Structure: 1st Week

Markets 1 - 25 1000.00

Markets 26 - 50 800.00

Markets 51 - 100 600.00

plus 600.00 for each station market 101+ IF and only IF they are mediabase
and/or BDS chart-affecting stations. No indicators, no trial BDS stations.

2nd Week

Markets 1 - 25 800.00

Markets 26 - 50 600.00

Markets 51 - 100 400.00

plus 400.00 for each stations market 101+ IF and only IF they are mediabase and/or BDS chart-affecting stations. No indicators, no trial BDS stations.

3rd Week

NO INDIES TO BE PAID ON ANY STATIONS.

At any time we can elect to do a promotion direct with a station (the 1st, 2nd or 3rd week) at our discretion. The promotion would be in addition to paying the indie in weeks 1 or 2. I have told the staff they are to reach ME and ONLY ME (unless I am on vacation) to have any promotions approved by ME before they commit to them. Otherwise, they are personally responsible for the promotion (ie, they have to pay for it).

THERE ARE TO BE NO BILLBACKS TO INDIES AT ANY TIME. This policy begins with CAMRON "Hey Ma".

| KSYR | 3 Spots | 3 Spots | 3 Spots | 3 Spots | | 12 | 60 |

Plus 120 Spins for the week \$600 per week

Spots starting tomorrow will look like rotation increases

As we maintain the program it is only \$600 per week.

We should run the program every week taking stations out of the program as we gain airplay

If all these spots hit this week we are guaranteed at least #8 on the BDS Chart.

It is very important that the programmers are aware of what we are doing.

and here is a run down off all the promotion's I've been working on with my stations that need approval and funds allocated as soon as possible. I'm refaxing all paperwork before I leave today, please reach out if you need any other info.

WPRW- \$2000 Invoice: This Invoice covers Keke's no show to WPRW's powerfest earlier this month. In addition, I had Fatz put Jag in rotation and move Mary into "A" rotation as part of this promo.

WJMZ- \$500 promo/invoice: The station played the Nine20 single as a means of securing the group for a track date on May 11th. The date was cancelled, so as a trade off the station is asking for financial support on a current station promotion.

WHXT- \$1000 Mothers day promo: I secured airplay and adds on both Dave Hollister and Keke Wyatt at station.

WWDM- \$1000 "A+ Plus promotion for kids": Dave Hollister, Yasmeen and keke Wyatt were all put into rotation immediately with adds to follow and Jaguar was moved up in rotation.

WWWZ- \$750: WWWZ and WMGL both added and are spinning the new jagaur single.

We need all the contest winner information. Names, addresses and SSNS.

I have sent numerous emails regarding contest winners not being done out side the system because of tax implications. This is the last time we allow this for you

I understand you have stations pressures, but insist on invoices in the future.

Please approve this in writing.

1. Cancun trip was for airplay support on Lindsay Lohan. It's my understanding

that spoke to you about this and since this was a last minute situation pulling the station out of a jam. I was told it was ok in this case to put it on my card.

2. The WHYI lunch was a music presentation for the entire Clear Channel Miami cluster. Natalie was not in attendance but her music and other current Universal/Motown releases were played and discussed.

Both expenses received prior approval from the national office.

put a trip for 3 to Cancun on his T&E and purchased this with another travel agency for \$1600. Also he listed a station lunch for staff and PO'd it to Natalie for \$1300. Please advise.

Thanks,

Okay this is not fun for me, I've been consumed all day with calls with etc bitching about our radio picture on Dream. Confidentially pop has spent \$196,000 and r/c has spent \$72,000 for less than 10 million in audience. This is embarrassing and a total lack of accountability. We have gotten ripped off beyond belief, we better turn this thing around or it's our a**. That's almost \$300,000 dollars and they are looking for some heads,,,,,bad bad bad. I don't want one invoice processed for indys, stations etc until their end of the deal is held up. If I find out that deals were cut with lack of airplay and overnight spins starting with the nationals, as they say heads are gonna roll,including mine.

Ok everyone

Here is the response from MTV in regards to adding the Dream video "CRAZY".

"We really like the video. The girls look great and there is definitely a positive vibe on the record as well. The girls were great at the BBQ and we just really need to see a bigger and stronger picture at Top 40 and Rhythm radio before we jump out on this project."

So we really need to push this even more now guys

1) unless you think getting krox on one overnight spin a day on calling you will be a springboard for closing other hard-edged alternatives i think we should concentrate on real airplay, which we'll get on razor blade. otherwise calling you will clog up the selector and the system's artist separation function may cost us spins on razor. i think asking for the obligatory add on calling you is a waste of time & money. you know what the station sounds like so you also know it would be buried. it would never see the light of day.

2) we need to clear the godsmack thing up. period

3) having in my market for 8 hrs beats having in my market for two days hands down anytime

4) yes, duane likes 3dd and thinks it's a smash

that's what i was thinking...they'd give 'calling you' obligatory spins at best. we'd have to have a serious conversation with melody about the spin commitment first. the band can make 7k in that market for a show and they're willing to give it up for a shot at airplay. also, i had her on the phone trying to get geary to clear up that other stuff but he was on a plane...we'll deal with it in the morning. having fun? i heard duane likes the 3dd....great news.

i say let's put them on razor blade. if they play it we can quietly approach kknd and a couple others that say the single is too wimpy or hot ac for them. that way, we can set up a track the format will be more likely to embrace and we won't lose any credibility while calling you is working at the pop formats. thoughts?

- this is a request from krox for blue oct for an "8 bands for a buck" show at stubbs on aug. 8th. they can offer the band \$500....and possibly rooms (they are still working on trade out for them). even though the band can make a lot more money on their own...they are willing to strongly consider for significant rotation on krox for one of their tracks.

since 'calling you' is not the best track for the station...let's discuss

FYI. Let me know if I should proceed with this. I had him research the request process so we could feel it out. That way we could do it without making it look too obvious to RD should we decide to put it in motion. Also, I'm counting on the video and additional airplay we'd get after two weeks to get it up & running on its own.
Please advise.

Subject: Brie Larson Radio Request Campaign for Radio Disney

Based on our initial test for Brie Larson's "She Said" on Radio Disney, the following is an overview of how many requests are possible.

With three girls calling (12-13 yrs old).

Radio Disney call in allows 2 types of requests.

1. The first is an automated request line. Request the ARTIST by pressing 275 (BRI). That allows 10 options with "she said" as the number 3 option.

Request the SONG by Pressing 743 (SHE), that allows 3 options with "She Said" as the number 2 option.

2. Live Answer Request. A live DJ answers the phone the callers tells the DJ where they are calling from, the name of the song, the artist, and their age.

On-Line Requests: On-line request page where you can submit the song you want to hear. The girls did two of those.

In 1 1/2 hours of calling they were able to get 3 requests total.

Two automated requests using each option.

One live answer request. The caller told the DJ her name, age, where she is from and requested 'She Said'.

The Female DJ thanked her and told her she would try to get her song on.

Calling Campaign Overview:

For a two week calling campaign: \$1500

First Week - 20 successful calls + 20 Online Requests (ramp up week)

Second Week - 50 successful calls + 50 Online Requests

Callers: 11-13 yrs old girls in multiple markets.

You will Receive weekly caller comment reports as well as bi-Weekly call logs.

Hit me back with any questions.

No way!

I know what they are up to. I already heard or smelled this coming. Nice try. Q101 hasn't added the last two 3DD tracks. Q101 has had plenty of chances to add 3DD as I have not stopped working that band to that radio station. They have added far less accomplished artists ahead of 3DD in the last several months. Yes the Loop began playing them after they became an established mainstream rock band. About the second album.

WTMX is clearly the leader in the market on this band. As much as I'd love to give them presents, I cannot discount airplay from WKSC. WTMX will not argue a neutral show but would all but shoot me if somebody got the presents. Frankly, I'd shoot me for them.

NEUTRAL with bulk of promotions going to WTMX.

Yes, Disney folks called us yesterday to let us know you called them about this.

... would like you to please email him a detailed list of radio air play up to
date. He wants to see what adds have come in during the last week while LL has
been promoting her movie.

Thanks,
